- R100. Central Intelligence Agency

R101. NSA/CSS

R102. Department of Defense

All of your responses, including any disclosed records, secret URLs or file share passwords, may be automatically, instantly, and publicly viewable via the muckrock.com Internet service used to issue this request.”

On May 7, the SFPD informed you that your request was too broad. We asked, will you please narrow/clarify the focus of your request so that it reasonably describes identifiable records, such as a category or topic? To date, the SFPD, Legal Division has not received further clarification from you.

A public records request must specify an identifiable record or category of records sought, Cal Govt. Code § 6253(b). The SFPD is more than happy to assist you in identifying documents, but a request must be sufficiently clear and defined to enable SFPD to understand what records are the subject of the request.

On May 24, the SFPD responded to your request as follows:

At this time, SFPD has determined that Part 1 of your request does not meet the legal definition under Cal Govt. Code § 6253(b). As for Part 2 of your request, responsive records are included in this correspondence. Please note that redactions have been made in these materials pursuant to Govt. Code § 6254(f), which exempts from disclosure records of complaints to, investigations conducted by, intelligence information or security procedures of, and investigatory or security files compiled by local police agencies.

Furthermore, on July 22, the Media Relations Unit, a separate division of SFPD, forwarded your MuckRock correspondence to the Legal Division (the division processing your request), which included your May 7 response to our request for clarification. Your response is as follows:

“we respond as follows:

We have indeed identified two category of records in our request (our request is also re-attached). The first (R1-R51) category is emails and calendar invites from or to SFPD employees and the named persons and entities. You should be able to search (for example) your Microsoft Exchange/Google Mail/etc. or other email service provider/server using those parameters. The second (R52-R102) is contracts between SFPD and the named entities. Your contract department should be able to identify those contracts by party. If you are demanding that we send each request R1 through R102 separately we can do that, but it seems inefficient to do so. We have sent similar requests to agencies across the United States, and in all cases have done so in a batch form for efficiency for both you and us.”

On the same date, the SFPD responded to your request as follows:

Although you provided an explanation as to how we should conduct a search, you did not narrow or clarify the focus of your request so that it reasonably describes identifiable records, such as a category or topic. Part 1 of your request is too broad.

A public records request must specify an identifiable record or category of records sought, Cal Govt. Code § 6253(b). The SFPD is more than happy to assist you in identifying documents, but a request must be sufficiently clear and defined to enable SFPD to understand what records are the subject of the request.

The SFPD stands by its determination of May 7 for part 1 of your request. At this time, SFPD has determined that your request does not meet the legal definition under Cal Govt. Code § 6253(b).

On the same date, the SFPD received your follow up response, as follows:

“There is no topic we are willing to limit part 1 of our request to. However we are willing, for now, to limit the officers/employees of your agency whose communications we are seeking, which is all officers/employees with any of the following positions: Captain, Commander, Deputy Chief, Assistant Chief, Civilian Director, or Chief of Police, during the time period requested.

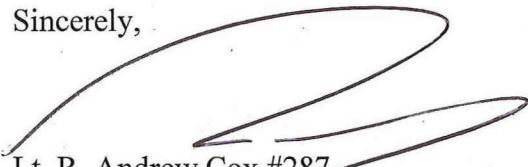

There is no requirement that a topic be used to identify records. We have indeed identified the subject of the records: all communications between the parties mentioned during the time period mentioned.”

On August 1, the SFPD invoked the extension of time to respond to your public records request, which you kindly updated on July 22, pursuant to Government Code section 6253(c) because of the need to consult with another division of the agency.

The SFPD was unable to locate responsive records to Part 1 of your request.

Thank you for your courtesy in this regard.

Sincerely,

Lt. R. Andrew Cox #287  
Officer in Charge  
Risk Management - Legal Division
